#### **Inhalation.**

Move to fresh air. If symptoms persist, call a physician.

#### **Skin contact.**

Wash off immediately with soap and plenty of water.

#### **Eye contact.**

Keep eye wide open while rinsing. Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. If symptoms persist, call a physician.

#### **Ingestion.**

Do NOT induce vomiting. Drink plenty of water. Consult a physician.

#### **Symptoms.**

See Section 2 and Section 11, Toxicological effects for description of potential symptoms.

Treat symptomatically.

## 5. Fire-fighting Measures

### Extinguishing media.

#### **Suitable extinguishing media.**

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

#### **Extinguishing media which shall not be used for safety reasons.**

None.

### Special hazards arising from the substance or mixture.

Carbon oxides. Nitrogen oxides (NO<sub>x</sub>). Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

### Advice for firefighters.

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## 6. Accidental Release Measures

### Personal precautions, protective equipment and emergency procedures.

#### **Personal precautions.**

Use personal protective equipment. Ensure adequate ventilation, especially in confined areas.

#### **Advice for emergency responders.**

No Information

### Environmental precautions.

Not readily biodegradable. Prevent product from entering drains. See Section 12 for additional Ecological information. Dust deposits should not be allowed to accumulate on surfaces as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., cleaning dusty surfaces with compressed air). Nonsparking tools should be used.

### Methods and materials for containment and cleaning up.

#### **Methods for Containment.**

Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent dust cloud. Avoid dust formation. Prevent product from entering drains. Take precautionary measures against static discharges. Take up mechanically and collect in suitable container for disposal. Keep in suitable and closed containers for disposal. Use personal protective equipment. Do not dry sweep dust. Wet dust with water before sweeping or use a vacuum to collect dust.

**Methods for cleaning up.**

Use personal protective equipment. Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry. Take up mechanically and collect in suitable container for disposal. Avoid dust formation. Clean contaminated surface thoroughly.

**Reference to other sections.**

See section 8 for more information.

**7. Handling and Storage**

**Conditions for safe storage, including any incompatibilities.**

**Advice on safe handling.**

Fine dust dispersed in air may ignite. Wear personal protective equipment. Take precautionary measures against static discharges. Avoid dust formation.

**Hygiene measures.**

Handle in accordance with good industrial hygiene and safety practice.

**Storage Conditions.**

Keep tightly closed in a dry and cool place.
