COLORFUL TRENDS WITH DAYGLO

Create new shades or color-shifting effects with DayGlo's unique products for cosmetics ingredients. Look to DayGlo for bronzers that illuminate, lipsticks that shine, or eye shadows that shimmer. Create softer or brighter shades of pink, orange, red, or even a new color. Achieve a fresh look using colors separately, layered, and blended for sheer or full coverage.

The SECOND GENERATION of Legal Fluorescent —COLORANTS—

Lightfastness has been improved and average of 2.5 times over the first generation of fluorescent colorants. EL colorants employ a revolutionary new thermoset polymer that is resistant to the solvents commonly employed in nail enamels and hair sprays. This makeup colorant performs well in all types of personal care products, including lip gloss and lip sticks, lotions and soaps, face paint, temporary hair color, and nail lacquer to name a few.

AVAILABLE COLORS:*
